Discover your Anima, the unique hookah

Unique hookahs for the spiritual dimension
of the contemporary smoking experience.

Story

From the very beginning of Anima, the creators had an ambition to bring to the market an innovative and modern product.

The Anima development team draws upon many years of experience in the development of unique hookahs.

A touch of luxury

Take Anima hookahs on an unforgettable journey through luxury resorts and restaurants around the world.

Anima hookahs are served in the finest hookah and gastronomic establishments around the world, such as the Ritz Carlton in the Maldives, The GAL next to the Burj Khalifa or Puerto Banus in Spain's famous Marbella.

Time spent with Anima hookahs can experience what only a select few experience in the most beautiful places on the planet.

Human touch

At Anima, we believe that the human touch is irreplaceable.

From the moment we receive the raw materials, our team carefully inspects each component. We bring the personal touch to each following step in the process to ensure that all of our hookahs are crafted to perfection.

Anima hookahs are meticulously assembled by hand with a guaranteed level of quality that is unmatched in the industry. Each hookah is made with the utmost attention to detail in order to exceed your expectations and enhance your smoking experience.

The team's drive for excellence and dedication sets us apart from the rest. We take great pride in our unwavering commitment to quality, and believe that this is what makes Anima hookahs truly exceptional.

Materials

The entire hookah is made with fine materials, with an emphasis on precision and handmade production.

Anima is one of the few hookahs with a cast aluminum component on the market. The combination of the aluminium with handmade porcelain creates a unique synergy in functionality and elegance.

Czech crystal is blown in traditional Czech glassworks with a long history. Thanks to this, we can guarantee the high aesthetic value of Anima vases and the variety in our designs.

Quality

To ensure you get the highest quality of smoking experience, we have spent a great amount of time designing a deeply detail-oriented product.

Masters of their craft participate in the development and production itself, starting with handmade porcelain, hand-blowing glass or using modern materials such as cast aluminum.

Anima hookahs are produced in the Czech Republic, the heart of the European Union.

Anima LOTUS

**The Anima LOTUS is a result of our
fascination with nature and its beauty.**

Symbolizing purity, enlightenment, and spiritual awakening, the lotus flower serves as our inspiration for the design. We sought to create a hookah that not only functions as a smoking device but also doubles as a piece of art, reflecting our profound admiration for the natural world.

With two distinct versions available - the table solution and the floor solution - the Anima Lotus offers versatility to suit your preferences.

While the table solution captivates as a decorative centerpiece, the floor version gracefully floats in the air, evoking the serene tranquility of a lotus resting on calm waters.

Featuring innovative technologies, the Anima Lotus introduces a magnet lock system that adds a fresh, modern touch and ensures easy and smooth opening.

Furthermore, this hookah features a unique 360-degree check valve system that allows smoke to flow in all directions, resembling the natural beauty of fog cascading down a white bloom.

The Anima Lotus is offered in two primary color variations: black and white. Additionally, we provide custom designs, allowing you to tailor the hookah to your individual style.

Choose the embodiment that aligns with your aesthetic vision and allow the Anima Lotus to become a captivating symbol of elegance within your surroundings.

Immerse yourself in the ethereal essence of Anima LOTUS Pure, from which the purity of water lotus unfolds. It symbolizes natural serenity and personifies simple, clear design, inviting you to explore its graceful curves.

The glass vase is handmade by Czech glass masters. The delicate waves impressed into each piece and their refraction of light let the contents of the vase stand out beautifully. Whether you prepare a fruity cocktail in the shisha or illuminate the shisha with the light that is embedded in the bottom of the vase itself.

Anima LOTUS Pure is available in two versions - table and floor - offering a choice depending on your space. The floor stand, made from solid steel, will provide stability, balance and ensure the pipe stands high enough.

Dark

BLACK

BLUE

Embark on a journey of enchantment with Anima LOTUS Dark, when the essence of night water lotus comes to life. With its mysterious elegance, the shisha embodies the reflection of the night sky on the black surface.

Crafted with the care of an artist, the Anima LOTUS Dark glass is a testament to the superior quality of its handmade craftsmanship. Each vase undergoes a unique process in which each vase in the Dark range is made from smoked glass that is dark and subtly transparent.

Try also with the backlighting of the vase itself. The glow of light emanating from the base of the shisha all the way to the top creates an enchanting play of light and shadow. Illuminated wavy maps in the glass are projected onto the porcelain body, adding a poetically visual touch to your experience.

Anima LOTUS Dark is available in two versions - table and floor - offering a choice depending on your space. The floor stand, made from solid steel, will provide stability, balance and ensure the pipe stands high enough.

Anima LOTUS + brings you a unique experience in a unique design. LOTUS + is simply something more!

The glass of Anima LOTUS + products is handmade from small exquisite fragments carefully melted in wooden moulds and then fused into the vase itself. This process ensures that each vase becomes a unique masterpiece and an original piece.

The elegance and originality is developed by the golden body of the shisha, which is made by a special technology where the porcelain body is finished in a vacuum chamber by applying a thin layer of titanium oxide.

Anima LOTUS + is available in two versions - table and floor, offering a choice depending on your space. The floor stand, made of solid steel, ensures stability, balance and ensures that the shisha stands high enough.

Customize your Anima

As producers of our hookahs, we can offer customization options to better match your colors or style or even add your logo to the hookahs. This provides a further unique selling point against your competitors or creates a personalized gift, allowing you to leave a lasting impression that aligns with your brand identity.

By investing in Anima hookah customization, you can differentiate your brand from others or attract new customers, while also offering your current customers a unique and unforgettable experience. Our past success stories with lounges, cafes, or restaurants around the world show that the investment can be quickly returned with increased customer interest and satisfaction. Stand out from the crowd. Let's design a unique Anima hookah together according to your brand.
